a Ladder.

New York, March 23 .- Fire broke out in the Five Points Mussion School shortly after nine o'clock this morning, just as the children begun their morning recitation. The flames originated in the rooms occupied by Mrs. Christina Harman and her three children. The mother had gone to work and left her three children alone in the rooms. They had been burning paper, and set fire to the furniture. An alarm was promptly sounded, and the teachers, with great difficulty, succeeded in keeping the children from becoming panic-stricken.

News of the fire spread rapidly, a soon the building was surrounded by frenzied parents and relatives, who tried to force an entrance in the building for the purpose of rescuing their children. They had jammed all the passages to the structure in their eagerness to reach the children, when the police arrived and drove them out.

The fliemen soon had the fire under

control, confining the flames to the base-ment in which they had originated. The teachers unite in saying that but for the prompt arrival of the police and firemen a terrible pinic, in which hundreds of childrens would have lost their lives, must have ensued.
There were fully 600 children in the school. Fortunately, with the exception of one fiteman who fell from a ladder to

PITT-BURGH, PA., March 24 .- There is no change to chronicle in the miners' strike, the general remark among both operators and miners being "all quiet." Operators rather ridicule the proposition made in the card published by the miners to Secretary Figurery, to the effect that an effort be made to induce the miners in competing coal fields to strike for lates equivalent to three cents a bushel, and that, meanwhile, three cents be paid in this district. One of them yesterday said that the Hocking Valley men are not likely to begin anothcraituggle so soon after their defeat; that they will combine with the miners to put them on an equal facting with Ohio, but fear they would fail; and that the only means is to form one organization covering all competing districts. On the other hand, the miners express their belief that they could induce the Hocking Valley to begin another strike.

A Rogue Goes Free.

HALIFAX, N. S., March 24.-Eighteen months ago James B. Cunningham, son of one of our wealthlest citizens, cashed a forged check for \$24 dollars and fled to Boston. He was extradited for forgery, and when acquitted here on this charge was rearrested for cashing a forged check, tried, convicted and sentenced to three years in the Penttentiary. An ap peal was taken to the Supreme Court on the ground that having been extradited for one offense he could not be convicted of another, but the Court sustained the conviction. The Supreme Court of Canada has just reversed this decision, and Conningham has been liberated. Trying to Settle Their Difficulties.

New York, March 24 .-- A meeting of Presidents and managers of the different freight railroad lines was beld at the office of Commissioner Fink yesterday afternoon, for the purpose of trying to settle the difficulty which has been existing for some time among several lines that have failed to adhere to the pooling arrangements entered into last spring. After a long discussion it was announced that the Eastern tailroad companies had agreed to continue the present pool for nother month, and that a meeting of the Western railroad Presidents would be held in Chicago early in April, when it is hoped that an amicable arrangement would be airived at. Can't be Found in Louisville.

LOUISVILLE, KY., March 24,--A dispatch from Nashville yesterday morning to the effect that Mr. Conant, the missing editor of Harper's Weekly, was in Louisville, caused considerable activity among the reporters in this city. The different hotels were visited, but nothing could be found of either Couant or the detective. The Chief of Police had the police force ooking for Couant, but no trace could us found. Detective Bligh informed a reporter that Detective Walsh would probably arrive here last evening. None of the detectives or police could get any clue to Conant's whereabouts, and were inclined to think it a false alarm. Blaine as a Political Prophet.

Brow pianos and superb Packard organs.

SETS of tools for brass repousse work, at Morehouse, Wells & Co.'s. mar24-dtf Board of Health, assisted by Prof. En-ward G Love, the well known late United States Government Chemist. The efficial report shows that a large number of the powders examined were found to contain alum or time; many of

them to such an extent as to render them sericusly objectionable for use in the orepa ation of human food. Alum was found in twenty nine sam-

ples. This drug is employed in baking powders to cheapen their cost. The presence of lime is attributed to the impure their manufacture. Such cream of tartar was also analyzed and found to contain lime and other impurities, in some samtime and other impurities, in some samples to the extent of 9d per cent of their entire weight. All the baking pew lers of market, with the single exception of "R pal" (not including the slum and phaphate powders, which were long three discarded as unsafe or medicine thy

product housekeepers) are made from the conpure commerce, and mequently contain lime to a corresinding extent

The only baking powder yet found by he mical analysis to be entirely frue from m and absolutely pure is the "Royal. He peri of purity results from the exit is the use of cream of terrar specially refined and prepared by putent processes I the New York Eartha Co., which to ally remove the tarbarate of time and nor man tons The cost of this chemisally pure cream of fartar is much greater bon any other, and on account of this greater rost, is used in no biking powder but the "Royal."

Prof Lave, who made the analyses of mking powder for the New York State Board of Health, as well as for the govern ment, save o' the purity and wholesome

ment, says of the purity and wholesome ness of "Royal"
"I have tested a package of 'Royal Baking Powder which I purchased in the open market, and find it composed of pure and wholesome ingridients. It is a oream of tartar powder of a high degree of merit, and does not contain either alum or phosphates or any injurious substates. Cer. "E. G. Love, Ph D."

To-Day's Announcements. Hiram F. Dillehunt is out as candidate

for the nomination for Constable by the Republican township convention. "Hi" was born in Decatur and has lived here all his life, knows everybody, and is known by everybody as a straightforward, industrious man, who is'm every way competent and worthy.

Ole Johnson is a candidate for alderman in the fifth ward. Mr. J. has lived in the ward for sixteen years, and is known well and favorably by the people. He would make an active alderman.

ANOTHER Sepirant for aldermanic honors in the fifth Ward is Robert W. Ferguson, one of the best known and most popular young men in the ward. Mr. F. represents the active, progressive young element, and would make a most acceptable member of the council.

BOILERS AT THE WATER WORKS.

The Mayor called the attention of the

dermen to the necessity of better boil-

ers at the water works, and he asked Ald.

Duchl, chairman of the water works com-

mittee, to make a statement of the condi-
